

SAP SD & MM Consultant

Date : January 08

2MoRO's PRESENTATION

2MoRO is a Consulting and Information Systems provider specialized in servicing customers from the Aerospace and Defense sector.

2MoRO is a certified SAP Partner (SAP PartnerEdge® and SAP Channel Partner™) bridging the gap of the A&D, consulting and IS domains with innovative Services, Solutions and expertise.

JOB DESCRIPTION

2MoRO is searching for an SAP consultant with experience in the SD and/or MM modules.

Your missions will consist in the participation in various project phases. Your level of intervention will include:

- Taking part in the general and detailed design phases of a project
 - Setting up the system parameters using provided specifications
 - Participating in system "go lives"
 - Writing and editing technical documentation
 - Ensure technical support of the system after "go-live"
- Depending on the project you may also be required manage and coach teams of technicians during system implementation support phases

REQUIREMENTS

You preferably possess a Masters degree in a related subject and have experience with SAP MM and/or SD modules. You also hold a transverse understanding of several other SAP modules, thereby serving to help integrate yourself quickly and effectively in any work team for mission varying from pre-sales all the way to full systems integration.

Experience in the Maintenance and SAP A&D solution would be equally desirable for this position.

This position is initially based in Toulouse, France but due to our rapid growth may lead to work in Europe and North America according to your mobility and motivations.

DETAILS

Legal Agreement :	Open-ended contract
Location :	Toulouse (31)
Income :	To be negotiated
